

Regline Rubber Chute Skirt Liners

Regline Rubber Chute Skirt Liners are a premium grade wear and impact resistant 60 Duro rubber liner available with steel backing or aluminium T-track.

FEATURES

Regline Rubber Chute Skirt Liners are made from a highly elastic premium rubber compound and will display excellent resistance to sliding abrasion and large particle impact.

Regline Rubber Chute Skirt Liners are designed for installation on the discharge point of chutes loading conveyor systems. They feature a bevelled edge and mechanical fastening system, so they can be easily installed to existing skirt boards, sealing the open gap between the chute and conveyor belt.

Rubber Chute Skirt Liners can be supplied reinforced with a vulcanised steel plate for stability in high impact applications or with aluminium T-tracks. This allows for strong and easy mechanical fastening to equipment.

Regline Rubber Chute Skirt Liners are supplied as a custom engineered rubber liner specifically designed for your equipment.

TECHNICAL INFORMATION

Polymer	NR/SBR	
Colour	Black	
Specific Gravity	1.10	ASTM D297
Hardness	60° ± 5° Shore A	ASTM D2240
Tensile Strength	20 MPa (min)	ASTM D412
Elongation @ Break	450% (min)	ASTM D412
Abrasion	90mm ³ (max) @ 10N	ASTM D5963
Temperature Range	-20°C to +70°C	
Tear Strength	80 N/mm (min)	ASTM D624

AVAILABLE SIZES

Regline Chute Skirt Liners can be custom cut to any profile. They can be supplied with a single bevelled end, parallel bevels for protection of the top edge of the liner or can have opposite bevels allowing the liner to be reversed and re-used.

Chute Skirt Liners can be supplied as per specifications and drawings or custom designed to suit your equipment and application requirements. They can be supplied ready for mechanical fastening to equipment with steel backing or aluminium T-tracks.

Steel Backing

Regline Rubber Chute Skirt Liners can be supplied with a vulcanised steel backing plate for stability in the most demanding impact and abrasion applications.

Aluminium T-track

Regline Rubber Chute Skirt Liners can be supplied with an embedded Aluminium T-Track keeping them lightweight and ready for easy installation using the T-bolt fastening method.
