

Regline SP Rubber Wear Plates

Regline SP Rubber Wear Plates are a premium grade wear and impact resistant 60 Duro rubber liner with serrated profile surface and steel backing.

FEATURES

Regline SP Rubber Wear Plates are made from a highly elastic premium rubber compound and will display excellent resistance to sliding abrasion and large particle impact.

Regline SP Rubber Wear Plates will absorb energy from the impact of materials. Offering superior wear protection for your equipment and also reducing vibration and lowering noise levels and dust emissions.

Regline SP Rubber Wear Plates are reinforced with a vulcanized steel backing plate for stability in the most demanding applications. This vulcanized steel backing plate allows for extremely strong mechanical fastening to equipment.

Regline SP Rubber Wear Plates can be supplied as a custom engineered wear protection rubber lining system for your equipment. They are suitable for both high wear and high impact applications.

TECHNICAL INFORMATION

Polymer	NR/BR	
Colour	Black with steel backing	
Specific Gravity	1.10	ASTM D297
Hardness	60° ± 5° Shore A	ASTM D2240
Abrasion	90mm ³ (max) @ 10N	ASTM D5963
Tensile Strength	20 MPa (min)	ASTM D412
Elongation @ Break	450% (min)	ASTM D412
Temperature Range	-20°C to +70°C	
Tear Strength	80 N/mm (min)	ASTM D624

AVAILABLE SIZES

Reglin stock SP Rubber Plates in a standard profiled panel. SP Rubber Wear Plates can be supplied custom cut to any profile with welded studs or pre-drilled counter-bored holes as per specifications and drawings.

Reglin can also custom mould rubber liners to suit your specific requirements.

PART NO.	DESCRIPTION	WEIGHT (EACH)
WSP08005/0715	80mm x 750mm x 1500mm (Includes 5mm Steel Backing Plate)	140 kgs
