

Ute Matting

Reglin Ute Matting is a profiled rubber matting designed for use as an anti-slip mat.

FEATURES

Reglin Ute Matting is made from a synthetic rubber compound and will display good physical properties.

Ute Matting is durable and features a textured profile finish on its top surface to ensure it is non-slip in both wet and dry conditions.

It has holes and a profiled finish on the underside to allow for water drainage and to ensure there is no moisture build-up under the matting.
