

# Conti Belt Noodle (Tie Gum)

Conti Belt Noodle is an uncured rubber designed for use as skim rubber in conveyor belt splicing.

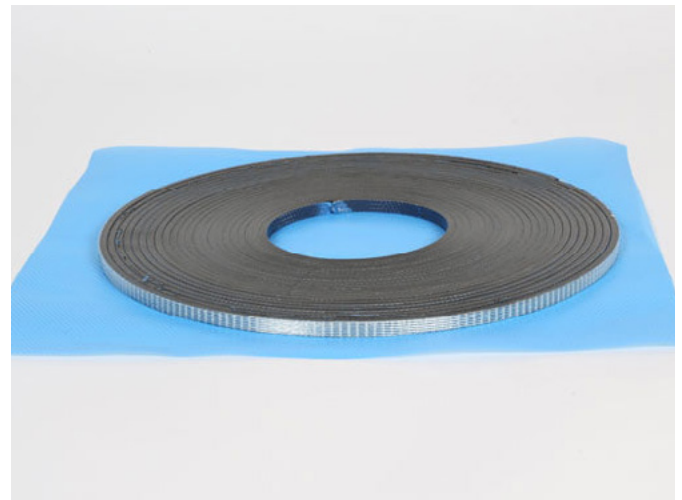

## FEATURES

Conti Belt Noodle is an uncured rubber strip designed for use in hot splicing and repairs of conveyor belts.

It is designed to be used as a skim rubber replacement and will enhance working life of splices and repairs.

Conti Belt Noodle will improve flexibility and strength of conveyor belt splices in service. Consult conveyor belt manufacturer specifications for rubber cure times.

Australian Manufactured.

## TECHNICAL INFORMATION

Polymer	NR	
Colour	Black	
Specific Gravity	1.23	
Hardness	60° ± 5° Shore A	ASTM D2240
Tensile Strength	17 MPa (min)	ASTM D412
Elongation @ Break	460% (min)	ASTM D412

All results based upon laboratory cured samples  
Specification subject to change without notice

## AVAILABLE SIZES

Conti Belt Noodle is available in a range of thicknesses and widths. It is custom made to order. Lead times and minimum order quantities apply to this product.
