

Conti Secur® BFA Cold Bonding Adhesive

Conti Secur® BFA is a two-part Chloroprene based rubber bonding cement.

FEATURES

Conti Secur® BFA Cold Bonding Adhesive is a premium two component adhesive system made up of Conti Secur® BFA and Conti Activator RE designed for cold bonding applications.

Conti Secur® will achieve excellent adhesion when bonding rubber to rubber, rubber to steel and rubber to fabric.

Conti Secur® displays an excellent initial bond strength and a durable long-term adhesion level under severe loading in service. It will also display resistance to water and some mild chemicals, including acids and alkalis used in mineral processing.

TECHNICAL INFORMATION

Colour	Black
Density	0.86g/cm ³
Pot Life	Approx. 3h at room temperature
Mixing ratio	5 weight.-% Hardener RE
Shelf Life	At least 24 months at room temperature after date of production
Temperature Range	50°C for short term up to max 90°C

AVAILABLE SIZES

PART NO.	DESCRIPTION	WEIGHT (EACH)
GLCSBFA08	Conti Secur® BFA Cold Bonding Adhesive 0.8L Tin	0.81 kgs
GLCSHRE04	RE Hardener 0.04L to suit Conti Secur® BFA 0.8L Tin	0.11 kgs
