

Rubber Liners

Wear and Impact resistant
rubber liners.

Premium Mechanically Fastened Rubber Wear Liners

In the world's most demanding bulk materials handling environments, equipment faces relentless impact, sliding abrasion, and heavy material flow. That's why Reglin Rubber offers a specialised range of mechanically fastened rubber wear liners, designed to deliver superior wear protection with easy, secure installation.

Quick and Secure Installation with T-Track and T-Bolt Fastening

Whether you're protecting chutes, hoppers, feeders, or transfer points, Reglin's T-Track and T-Bolt fastening systems provide strong, adjustable, and reusable liner installation without the need for adhesive or complex surface preparation.

Regline PT Rubber Wear Plates

Available Sizes

55mm x 600mm x 1000mm

55mm x 600mm x 1500mm

80mm x 600mm x 1000mm

80mm x 600mm x 1500mm

Regline WB Rubber Wear Bars

Available Sizes

50mm x 50mm x 1500mm

75mm x 75mm x 1500mm

100mm x 100mm x 1500mm

150mm x 150mm x 1500mm

Fast to Install. Ready to Perform. Built Mine Tough.

SAR 60 Rubber – Built for Maximum Wear and Impact Resistance

At the core of our Regline Rubber Wear Liners is Reglin's premium SAR 60 rubber compound specially formulated to deliver exceptional abrasion and impact resistance in the toughest mining and quarrying conditions.

Steel Backed for Maximum Strength

Reglin's steel backed rubber liners are designed for the most demanding wear and impact applications. By vulcanising premium SAR 60 rubber directly to a heavy-duty steel backing plate, these liners provide superior structural integrity and the strongest mechanical fastening solution available.

Regline PP Rubber Wear Plates

Available Sizes

Reglin's Steel Backed PP Rubber Liners are stocked in pre-moulded sheets in thicknesses from 15mm to 150mm, ready to be custom cut to suit your equipment.

They are available with a standard 5mm or heavy duty 10mm thick steel backing plate for mechanical fastening.

Regline SP Rubber Wear Plates

Available Sizes

80mm x 750mm x 1500mm

Custom Cut Liners

Reglin offers a fast, in-house cutting and fabrication service to supply our custom-made steel backed rubber liners with short lead times.

We can cut liners to suit any drawing, ensuring the perfect fit for your application. Liners can also be supplied with welded studs or counterbored holes, ready for easy mechanical fastening to your equipment.

The background of the entire page is a close-up, high-resolution image of red rubber granules. These granules are irregular in shape, with many sharp edges and facets, giving them a crystalline or mineral-like appearance. They are densely packed, filling the entire frame with a rich, vibrant red color. The lighting creates subtle highlights and shadows on the surfaces of the granules, emphasizing their three-dimensional texture.
